SUMMARY

AI & Automation Engineer and 3x hackathon winner with experience developing intelligent systems, autonomous agents, and scalable computer vision models. Skilled in building and deploying secure, production-grade systems for real-world industry use.

SKILLS

Technology: Machine Learning, Deep Learning, Computer Vision, NLP, Generative AI, Large Language Models (LLMs), RAG, Agentic AI, Prompt Engineering, Knowledge Engineering

Data Science: Exploratory Data Analysis (EDA), Data Analytics, Data Quality, Data Cleaning, Data Preprocessing, Feature Engineering, Model Training, Model Evaluation, Model Validation, Benchmarking, Data Pipelines, Data Visualization

Libraries & Frameworks: PyTorch, TensorFlow, scikit-learn, OpenCV, YOLO, Hugging Face, LangChain, LangGraph, FastAPI, Streamlit, SQLAlchemy

Data & Automation Tools: SQL, SQLite, Pinecone, n8n

Development & Deployment: Python, REST APIs, Docker, AWS, Render

EXPERIENCE

Software Development Intern

Jul 2026 - Aug 2026

Prewery Private Limited, Janakpuri, New Delhi

- Architected backend REST APIs in **Express.js & MongoDB** for a creator-monetization platform, handling real-time **Meta Webhook** ingestion, tag verification, and automated DM dispatch via Instagram Graph API.
- Implemented dynamic campaign budget guardrails, multipart media/receipt upload pipelines (Multer), and aggregated endpoints that reduced mobile client data fetch overhead.

Generative AI & Prompt Engineering Intern

Jun 2025 - Jul 2025

Sansoftech, 6-week summer internship

- Iterated on prompt templates** to ground answers in retrieved context and cut hallucinated responses, reviewing model outputs against the **source documents** to check they were supported.
- Built a document Q&A assistant** in Python using **Retrieval-Augmented Generation (RAG)** that answers natural-language questions over company documents, **reducing information retrieval time by roughly 30%**.

PROJECTS

Scam Bait AI

- Deployed a multi-channel AI honeypot** across Telegram and phone calls, combining **FastAPI + LangGraph** with **TF-IDF/SVM scam classification** and automated extraction of UPI IDs, phone numbers, phishing links, wallets, and other indicators.
- Added session locking and semaphore-based concurrency controls**, plus a **Twilio → Deepgram → LLM → ElevenLabs voice pipeline** with graceful fallbacks; deployed the API, bot, and dashboard on **Render**.

FLOWITS

- Built a traffic-control decision system** trained on **8,057 Bengaluru incidents**; the **Gradient Boosting severity model** achieved **0.859 weighted F1** and **0.974 ROC-AUC**.
- Combined K-Means spatial risk zones**, duration forecasting, **NetworkX/Dijkstra diversion planning**, live Google News RSS, and an **outcome feedback loop** in a FastAPI + React deployment.

Telecom Standards Assistant

- Built an evidence-gated RAG assistant** over 3GPP TS 38.300/38.401, indexing **~1,561 chunks** with OpenAI embeddings + **Pinecone** and **Cross-Encoder reranking**.
- Created a 60-query evaluation harness**; achieved **100% citation validity**, **100% correct refusal**, **94.9% Retrieval Hit@1**, and **0% unsafe/unsupported-answer escape rate**.

Pancake: Agentic Coding Assistant

- Built an agentic coding assistant** with **Ask, Plan, and Agent modes** across a terminal UI and Telegram for codebase Q&A, web search, staged file edits, and multi-step execution.
- Engineered an isolated overlay sandbox** that blocks live-file changes until **user approval**, plus **OpenRouter integration** and graceful Telegram delivery fallbacks.

ACHIEVEMENTS

- Hermes Buildathon:** Top 5 Finalist
- OpenAI Codex Community Hackathon:** Top 6 Finalist among all participating teams.
- GUVI India AI Impact Buildathon:** Top 2% Finalist of national submissions.
- Hacktivite:** 2nd Place overall.
- FrostByte Hack:** Theme Winner (\$100 prize).

EDUCATION

Vivekananda Institute of Professional Studies (VIPS), New Delhi

Aug 2023 - Present

B.Tech in Artificial Intelligence and Data Science | CGPA: 8.2 / 10

New Convent Sr. Sec. School, New Delhi

March 2023

Class XII: 92%

LEADERSHIP

Head of Operations, Entrepreneurship Cell (E-Cell), VIPS

2023 - 2026

Led operations, event execution, sponsorship outreach, partnerships, logistics, and cross-functional team coordination for entrepreneurship initiatives.
